

Department of Civil and Environmental Engineering

University of Cyprus

## SEMINAR SERIES SCHEDULE | Fall Semester 2012

Held on Wednesdays at 16:30 | Social Facilities Center, Building 7, Room 018, UCY New Campus

19 September 2012 **Mr Giorgos Papavasiliou** *University of Cyprus*

Earthquake-resistant design and retrofit of steel and concrete composite structures.

3 October 2012 **Dr. Ayse Ulgen** *University of Southern Denmark, Odense, Denmark*

Genetic versus environmental trends on asthma and other respiratory-related diseases.

10 October 2012 **Prof. Alan Woodside** *University of Ulster, Ireland*

A Study of the Factors affecting Skid Resistance.

24 October 2012 **Prof. Costas Costa** *Technical University of Cyprus*

Marine Pollution and Integrated Remedation Schemes.

7 November 2012 **\* Dr. Syllas Michaelides** *Meteorological Service Cyprus*

Meteorological Patterns in Cyprus.

14 November 2012 **\* Prof. Agis Papadopoulos** *Aristoteleion University of Thessaloniki, Greece*

Energy Efficiency of Buildings: trends and challenges.

21 November 2012 **Dr. Dan Liberzon** *Technion University, Israel*

Analysis of Wind-induced water waves for wave energy harvesting.

28 November 2012 **Mr. Steinar Nja** *Norwegian Petroleum Directorate, Norway*

*To Be Confirmed*

\*This lecture will take place at Social Facilities Center, Building 7, Room 010

A green-highlighted lecture denotes a lecture qualifying for the Inter-Departmental Masters Program "Energy Technologies and Sustainable Design"
